

FUTURE PAs NEED YOU!

What to expect as a MEDEX PA preceptor

Preceptors are paired with a second-year PA student. This is a hands-on clinical experience. As an expert in your field, you will teach the competencies necessary to provide meaningful, quality care in your specialty.

A MEDEX Clinical Coordinator will be designated to support you when you get started. Family practice rotations will involve a site visit by the MEDEX Clinical Coordinator to review student progress. At the end of the rotation, preceptors will complete and provide an electronic student evaluation.

Commitment options

- 16-week family practice preceptorships (Family practice only)
- 4-week specialty clerkships (all other services)

Enjoy the benefits of preceptorship

- Cat1 CME: 2 credits per PA student per 40-hours, no limit (PAs only)
- Contribute your expertise to future PAs
- Priority recruitment of PAs post-graduation
- Affiliation with the UW School of Medicine
- Optional opportunity to be a Volunteer Clinical Faculty Member of UW
 - Includes access to UW Health Sciences Library
 - All preceptors can have access to UpToDate with by-name access to earn additional Category 1 CME
