

November 25, 2024

To All MEDEX Program Applicants:

This message is to inform you of the current situation at MEDEX Northwest. We were informed in October of 2024 that a decision was made by the ARC-PA to place MEDEX on Accreditation-Probation status. **MEDEX remains a fully accredited program, and this status is intended to ensure we continue meeting the ARC-PA's rigorous standards.** We will continue forward as a fully accredited program in addition to meeting what the ARC-PA has set forth for us to address. **Your education, future degree, and future employment are not and will not be at risk.** If you have been accepted to the program or are scheduled for an interview, we understand this news may raise questions for you. Should you decide to reconsider, we are here to support you in releasing any commitments you have made with us.

Please see <https://familymedicine.uw.edu/medex/pa-program/accreditation/> for more information, and email medex@uw.edu with any further questions you may have.

Sincerely,

Terry Scott, MPA, PA-C, DFAAPA
Associate Professor
Program Director/Section Chief
